

## A Co-operative University?

We have responded to the Higher Education Research Act (2017) by forming a Co-operative University Working Group (CUWG). This consists of co-operative educators and practitioners, academics, students, adult and community educators, and others interested in alternative educational approaches.

### A Co-operative Manifesto For Rochdale

We're delighted to partner with the Workers' Educational Association and the Pioneers Museum to run this exciting new course in Rochdale, starting on the 19th September 2017. Rochdale is the 'home' of co-operation but co-operation is also a fantastic idea for the modern world. Over a billion people are members of co-operatives across the globe and they all want to build a better world and get people into decent work.
