Development
Pipeline Tool
Taster & Package

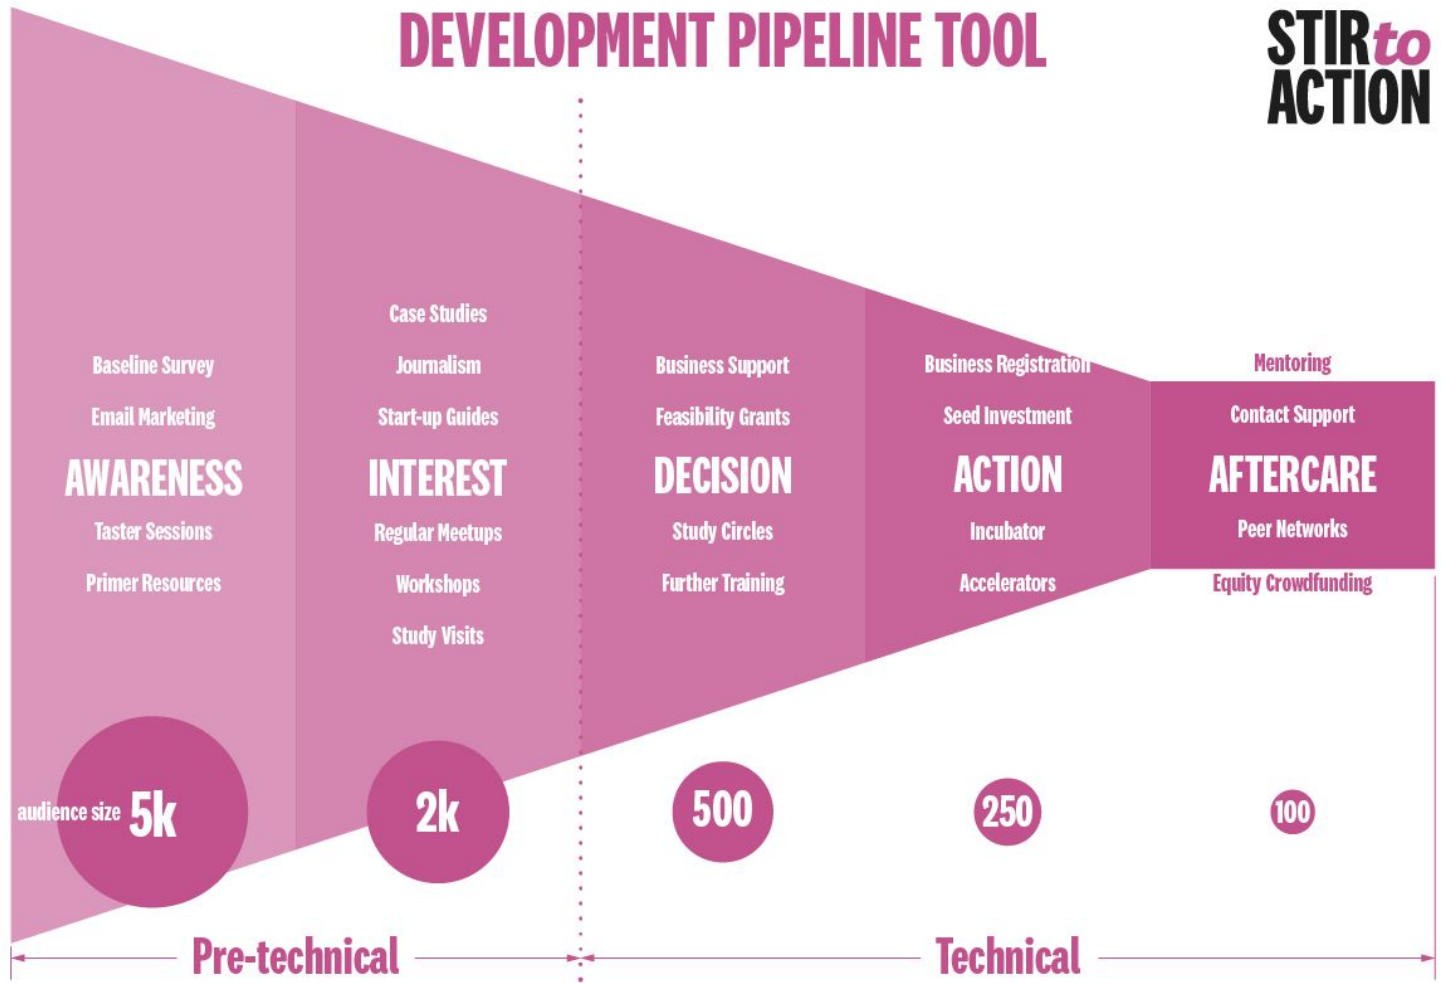

Taster

1.5 hour workshop to explore how pipeline development could work in your local authority.

Support package

5-10 days of support on diagnostic, strategic development, and funding opportunities.

DEVELOPMENT PIPELINE TOOL

How can I use the pipeline development tool?

- Diagnostic: identifying existing infrastructure & development gaps
- Strategic: when & where to invest capacity and resources
- Funding: leveraging internal & external funding

What are the outputs?

- Detailed analysis of local infrastructure & gaps
- Identify existing & new 'entry points' into the sector
- Strategic understanding of full business cycle
- Targeted investment into each stage
- Develop readiness levels and appropriate support

What are the outputs?

- Community in-reach opportunities through local partnerships
- High volume of interest to offset low conversion rate
- Access to external funding and programmes
- Sensitise officers to business development opportunities & national programmes

Taster

1.5 hour workshop to explore how pipeline development could work in your local authority.

Support package – POA

5-10 days of support on diagnostic, strategic development, and funding opportunities.
