

Peopletoo
it works better with you

Our Mission

Our aim above all, is to ensure the sustainability and best possible outcomes of public services. Using our proven methodologies, tools, financial expertise and data insight, we create optimised conditions for successful, positive and long-lasting change, ensuring our clients are on the strongest possible footing to meet future challenges and opportunities.

About Us

Peopletoo provide support to local government through the design and implementation of affordable and outcome focused services. We combine comprehensive understanding of frontline council service delivery, with expertise in financial management, demand modelling, cultural change and best practice. Our work provides valuable insight that will help councils manage demand, reduce costs, improve practice and service performance.

Our team has engineered over 200 transformation initiatives in the last decade, providing tailored recommendations and informing strategic decision-making across more than 140 public sector partners.

We combine our expertise with yours, working as an extension of your team to strengthen datasets, optimise services and improve lives. What sets us apart in improving service outcomes is that we don't just help you design, we help you deliver.
