

**People, Potential, Possibilities t/a P3** is an award-winning social enterprise. P3's services support people who are socially excluded to live more fulfilled lives. Though much of P3's provision focuses on housing-related support and homelessness, we don't just put a roof over people's heads—they address difficulties which can impact on someone's ability to live independently in the longer-term, such as mental ill health, substance misuse, access to benefits, employment and education opportunities and more.
