

Please read:

These guidelines have been prepared to help you select the appropriate **categories** and **principles** for your Case Study before publishing it on the CCIN website or in the printed Case Studies Pack.

Category:

Please select the **primary category** for your Case Study and type it at the top. If your Case Study relates to more than one category, please include that as well, so we can make it searchable on the www.councils.coop website.

- Climate Change and Environment
- Community
- Community Wealth Building
- Education & Training
- Finance
- Health & Social Care
- Housing
- Jobs
- Poverty
- Social Outcomes
- Strategy
- Young People

Please only icon(s) for **principle(s)** that relate to **this** Case Study.

Social Partnership

We will strengthen the co-operative partnership between citizens, communities, enterprises and Councils, based on a shared sense of responsibility for wellbeing and mutual benefit.

Democratic Engagement

We will support the active engagement of the full range of residents in decision making and priority setting.

Co-production

We will develop systems that enable citizens to be equal partners in designing and commissioning public services and in determining the use of public resources.

Enterprise and social economy

We will promote community-based approaches to economic development that focus on supporting the creation of jobs, social enterprises and other businesses and providing an environment for co-operative and mutual enterprises to thrive.

Maximising social value

We will support the development of a framework and criteria for social value, giving substance to the concept and supporting Councils with the tools to ensure better local social and economic outcomes.

Community leadership and a new role for councillors

We will explore ways for councils to act as a platform for helping the community to contribute to local outcomes, and to re-think the role of councillors as community connectors, brokers and leaders.

New models of meeting priority needs

In exploring new ways of meeting the priority needs of our communities we will encourage models, such as co-operatives and mutuals, which give greater influence and voice to staff and users. In designing and commissioning public services and in determining the use of public resources.

Innovation

We will embrace innovation in how we work with local communities to drive positive change.

People-centred councils
driving social innovation
putting people first

Learning

We will capture and 'expand' the experience and learning from individual projects and approaches in order to encourage broader application of co-operative principles within individual member Councils and across the Network.

Walking the talk

As a membership organisation we will make this statement of our principles operational by:

- Co-operation among members: Our members work together to help each other implement our values, sharing experiences and learning.
- Openness of membership: Full, Associate and Affiliate Membership is open to any qualifying Council, organisation or individual who shares our values and is committed to putting them into action.
- Co-production of the Network's work: Members help shape the Network's work programme and the content of events and written products.
- Action-focused: The network is a vehicle for helping councils translate co-operative values and principles into policy and practice.
- Membership-based: The network is majority funded by modest membership subscriptions from its member Councils, Associates and Affiliates.
- Non-party-political: Members share the belief that working co-operatively within and across communities holds the key to tackling today's challenges.
